

## Further Growth for MHA, UK

Morison International is pleased to announce that its UK member MHA (the UK association of leading accounting firms led by MacIntyre Hudson) has achieved further growth with Tait Walker, a firm based in Newcastle, joining the association.

The firm was established in 1937 and currently has 3 offices across the North East of England – Newcastle upon Tyne, Tees Valley and Northumberland.

Tait Walker deliver a broad range of accountancy and taxation services and bring to the association an award winning corporate finance team, who have topped the North East **CorpFin** deal charts for the last 10 years.

They also have in-house Forensic Services experts who carry out fraud & financial investigations and advise on commercial disputes, security screening, employee vetting and identity fraud.

Mike Brown, Chairman of MHA, said: "We have worked hard to find like-minded firms with outstanding reputations in their field of expertise or geographical area, and Tait Walker fitted the bill in the North East."

Tait Walker is the eighth firm to join the national association.

On behalf of Morison International, we would like to congratulate MHA on their growth.
